

HIGH ACCESS SYSTEM TECHNOLOGY BY GORACON

The **G-climber**<sup>®</sup> eco

Plug & Play... let's go!

**G-climber® eco by goracon...**  
**...a worthwhile investment.**

Once again it is goracon, setting the standard when it comes to profitably servicing a wind turbine.

The **G-climber® eco** minimizes your efforts for the time consuming ascends and descends that come with service works.

The advantages are obvious, the lightweight all-in-one mobile drive unit is:

- easy to transport
- can be installed/deinstalled in a second to the fix basic unit
- comes with included E-box

Take your benefits from our ideas!

The **G-climber® eco**...

- ...economical
- ...comfortable
- ...one for all

**DEKRA type approved according to the Machinery Directive!**

Your fall protection system must be suitable for use with the G-climber eco. We will gladly carry out a combination test according to EN 353-1, if required. Please contact us for additional details and pricing at [service@goracon.de](mailto:service@goracon.de).
